PROFESSIONAL SUMMARY

Analytical Computer Science & Engineering (AI & Data Science) graduate targeting roles as a **Data Analyst**, **Business Intelligence Analyst**, or **AI/ML Engineer**. Possesses hands-on expertise in exploratory data analysis (EDA), statistical modeling, business intelligence, and Generative AI applications. Proficient in Python, SQL, PostgreSQL, Power BI, and Advanced Excel to transform complex datasets into actionable business metrics. Strong background in engineering end-to-end Retrieval-Augmented Generation (RAG) pipelines and multi-agent AI workflows.

TECHNICAL SKILLS

Programming & Databases:	Python, SQL, PostgreSQL, MySQL, ChromaDB, Java, C
Analytics & Visualization:	Data Cleaning, Data Wrangling, EDA, Statistical Modeling, Predictive Analytics, Power BI, Power Query, Advanced Excel, Dashboards
Machine Learning & AI:	Scikit-learn, TensorFlow, Keras, Pandas, NumPy, Matplotlib, Seaborn, Plotly
Generative AI & Frameworks:	LangChain, RAG, AI Agents, Multi-Agent Systems, Prompt Engineering, Streamlit, Hugging Face, Mistral AI
Tools & Developer Ecosystem:	Git, GitHub, Jupyter Notebook, VS Code

PROFESSIONAL EXPERIENCE

Data Analytics Intern | Unified Mentor Pvt. Ltd.

May 2024 – June 2024

- Cleaned, transformed, and analyzed complex real-world datasets exceeding **10,000+ records** using Python and Pandas, fulfilling 100% of assigned deliverables ahead of schedule.
- Applied statistical hypothesis testing and data wrangling across 2 core workstreams to identify key operational bottlenecks and present data-backed summaries to business stakeholders.
- Developed automated data cleaning scripts that reduced missing-value processing time by **30%**.

KEY PROJECTS

Shiv AI Video Assistant (Python, Streamlit, Whisper, Sarvam AI, Mistral AI, LangChain, ChromaDB)

- Developed an AI-powered meeting intelligence platform processing long-form video recordings (up to **2+ hours**) to automate transcription and insights extraction.
- Integrated RAG-based vector search with ChromaDB, reducing manual meeting review time by **65%** through instant semantic Q&A.

Super Store Sales Analysis (Power BI, Power Query, Advanced Excel, Data Visualization, Forecasting)

- Built an interactive multi-page Power BI dashboard modeling over **50,000+ transactions** across sales, profit margins, customer segmentation, and regional performance.
- Implemented time-series forecasting models to predict quarterly regional revenue with **>85% accuracy**, aiding inventory distribution decisions.

Placement Prediction Using Deep Learning (Python, Pandas, NumPy, Scikit-learn, TensorFlow, Keras)

- Architected and evaluated a Neural Network classification model on **5,000+ student profiles** incorporating academic, internship, and project metrics.
- Achieved **83.7% model accuracy** in predicting student placement outcomes to help university counselors identify high-risk students early.

Student Mental Health Analysis (Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook)

- Analyzed **1,500+ survey responses** across 4 primary risk categories (academic, financial, social, and self-reported health) using statistical correlation and EDA.
- Identified key statistical drivers of academic stress, visualizing trends to support targeted student wellness programs.

Shiv RAG AI (Python, LangChain, Hugging Face, Sentence Transformers, ChromaDB, Mistral AI, Streamlit)

- Built a document retrieval system capable of indexing PDF files up to **500+ pages** into high-dimensional vector databases.

- Optimized vector similarity search latency to under **2 seconds per query**, providing precise contextual answers grounded in source documentation.

EDUCATION

B.Tech in Computer Science & Engineering (Data Science & AI) — Shree Ram Swaroop Memorial University, Lucknow	Graduating 2026 74.05%
Class XII (Senior Secondary) — S.V.M. Inter College, Yashoda Nagar, Kanpur	83.00%
Class X (Secondary) — S.V.M. Inter College, Yashoda Nagar, Kanpur	84.00%

CERTIFICATIONS

- **Artificial Intelligence Analyst, Data Analysis with Python, Deep Learning Fundamentals** — IBM Developer Skills Network / SRMU (2025)
- **Data Science Methodology** — IBM Developer Skills Network / SRMRCEM (March 2025)
- **Predictive Modeling Fundamentals I** — IBM Skills Network / Cognitive Class (2024–2025)
- **Data Analytics Using Excel** — TCS iON / Tata Consultancy Services (July 2023)

ADDITIONAL DETAILS

- **Languages:** English, Hindi
- **Interests:** Data Science Projects, Open-Source AI, Cricket
